JUNE 17, 1977

INSTITUTE OF CHEMISTRY, SRI LANKA

Sixth Annual Sessions

June 17, 1977

PROCEEDINGS

	Page
1. PRESIDENTIAL ADDRESS Mineral Sands of Sri Lanka <i>J. P. R. Fonseka</i>	1
2. Factors Affecting the Yield of Alcohol from Coconut Sap <i>M. K. G. S. Kalyananda, E. E. Jeya Raj and E. R. Jansz</i>	7
3. Some Aspects of the Mechanism of the Antioxidant Activity of Cashew Nut Shell Liquid <i>R. A. Rajapakse, S. Kadiragamanathan, W. A. S. Gunasena and K. B. Wijekoon</i>	17
4. Production of the Starch Hydrolysing Enzyme Glucoamylase—III. Recent studies on increasing yield, scaling-up and purification of the enzyme <i>E. R. Jansz, Nimali de Silva, Nirmala Pieris, E. E. Jeya Raj and D. J. Abeyratne</i>	21
5. Introduction of Peppermint into Sri Lanka and the Study of Peppermint Oils <i>D. V. M. Geevaratne, A. A. Padmapriya and A. L. Jayewardene</i>	27
6. Effect of Mineral Nutrients on Cellulases of <i>Coprinus Lacopus</i> <i>S. P. Amarakone and D. Lewis</i>	33
7. Studies on Some Local Legumes—1. Major constituents and a preliminary survey on the presence of Cyanogens and Trypsin inhibitors in the seeds of some selected legumes <i>E. R. Jansz, Nirmala Pieris, M. R. Hettiarachchi and K. D. L. Gunatilake</i>	41
8. Recent Applications of Chemistry to the Tea Industry of Sri Lanka (Abstract only)	45
9. Eric L. Fonseka Memorial Lecture—L. B. de Silva (not presented for publication)	—
